BE PREPARED WEEK

Many Events Planned For Next Week

Scouts at Wauwepex during Be Prepared Week will be given a thorough conception of the Emergency Service Corps. This group was formed to aid the Red Cross in times of stress and catastrophe. It is made up of Scouts fifteen years of age, and over. It's members are given rigid exams in all types of activities which might be used in their work. The candidates must be able to apply first aid in complete darkness. Severe physical exams are given, and scouts in this league must be able to run cross country and swim long distances.

It is the object of our camp leaders to promote this idea in Wauwepex, and thus Scouts who are in camp at this time will carry the idea back to their home troops. During the entire week, scouts must Be Prepared to do anything when called upon. This will act as a review for the older scouts, while it will also instruct the younger campers, and give them some practical experiences to apply their Scout training.

Tuesday, the camp will participate in an obstacle race; on Wednesday there will be and ----

CIRCUS-BIG SUCCESS

At 2:00 o'clock last Wednesday, the Circus opened with a bang. Immediately the concessions started competing between themselves for business. There was every different kind of a sideshow imaginable. The Algonquin Congress of Beauty Featuring Gypsy Rose Levy early drew capacity crowds. After each show Tod Hale, troop One's energetic assistant troop Leader by fancy barking led the crowds to Troop One's Wild Animal Show. Later in the afternoon Dick Wynn, Tr. 5's empressario staged a strip tease that drew a record crowd.

Shortly after the Circus opened The Refreshment Concession with Al Cullen in charge was set up. It drew a steady crowd all the rest of the afternoon.

The small concessions made out very well with some of the Concessions making upwards of one or two thousand dollars. They featured chance games, bowling games and various games that taxed a person's skill.

JOINING IN

"I had a swell time", a scout said, "I wish I could stay longer". "Yes I agreed," You can certainly have a good time if you want to. And I mean that, I'm not kidding fellows. The reason why he had such a good time while he was here was that he participated in all troop and camp activities. Baseball games, Water polo, basketball, the Regatta, the plays, singing at church, playing in the retreat band, working at the craft lodge, collecting specimens for the Museum, working in the mess halls and many more activities were chalked up to his name. No wonder he had such a good time with a record to be proud of and a sense of satisfaction at work well done. Here was a Scout that was a credit to his troop.

When Chief says the camp is for the boys he means it. Although the officers are here to help and guide you, fellows you have to join in and take the initiative.

THINGS AND-STUFF

Question of the Week: What is a
Wedding?

Answer: A wedding is a funeral with
out the flowers.

Classified Ad: Lost one Scout axe.
Finder please call Lou Ruddock be-
tween 7 and 8, blond, blue eyes and
a good dancer.

The Siberian Wonder Show at the Cir-
cus had to cut out one of it's best
acts. There were women in camp so
the Can-Can dancers could only partly
do their stuff.

Advice to Dick Wynn: That wasn't
thunder you heard the other night
but just the Editor snoring.

During an inspection made by Al Cul-
len a scout from Troop (censored) told
George Carr to lay an egg. George
very much surprised told Al and five
pts. Were promptly taken off. A
moment later Bob Best piped up and
said, "Don't lay it George."

Don Davis's latest idea for emptying
the boats of water is to drill holes
in bottoms for the water to drain
out.

Credit should be given to Bob Meyer
for all the work he has done in the
Adjutant's. Thanks a lot Bob We
sure do appreciate it.

We can't do it for you. You'll
have a better time than the fellow
who sits on his cot and reads fun-
ny books all day. You don't want
to be like that. Be a real son of

UNDER THE SPOTLIGHT

Last Thursday night Bob Brett presented a gripping melodrama entitled "Soiled Again" or "The Bloody shirt. The action took place in two parts; one on the stage where a melodrama was being presented and backstage while the show was going on. The most hilarious bits of the play were when the villain and the beloved one come together and many complications ensue. Your reporter feels that Bob deserves a lot of credit for producing in such a short time such an outstanding play.

Next Saturday July the twenty sixth, the Wauwepex Players under the direction of Bob Brett will put on a play entitled "No Curtain Calls"

The action takes place in an unnamed European Country at a deserted hunting lodge. To this cabin come several intelligence officers and an unnamed artist. The officers have prepared a trap for their arch enemy, whom they hope to surprise and take red-handed. The officers trap is fool-proof; This time their men shall not get away; they have provided for every contingency except one: the unpredictable temperament of an artist. This is an exciting play and one that everyone should see.

The lead role is taken by our well known Camp Secretary with the other roles still to be cast. The other characters are as follows

The Private The Lieutenant
The Captain The Stranger
The Actor -----Larry Muller

NOTES

MUSIC

At Friday's noon mess, Ed Moore and George Hodgins presented a musical program in the Upper Mess Hall. They played two selections; first; Intermezzo, and then, Ave Maria, due to a string that broke George was not able to finish playing the second selection but not even that could spoil the impression made by such beautiful playing of such wonderful selections.

Nature

All week promptly around six o'clock the pride of the museum and the special pet of John Marquesse every morning started to crow. The first in question is a beautiful rooster of varying shades of black, green and red. If beauty were the deciding factor he would be king but unfortunately we are concerned about nothing but our sleep and with him crowing in the wee hours of the night we aren't getting much of that. Let's hope that John takes him home with him today.

SPORTS

In a water Polo game between troops 2 and 5 Troop 2 won by a score of 7 to 4. Troop 5 played a game of basketball with Troop 6 and won by a score of 9 to 6.
